Our pricing is done by the linear foot. We use google satellite mapping tools to measure your fence. If you would like to double-check our estimate or if we could not view your fence using the google satellite map, please use this diagram to determine the # of linear feet for your fence project. Measure your interior back yard fence (all 4 sides) and the exterior front yard fencing (any fencing facing the street, front yard, or alley). If you have any questions, please call us at 720.432.2422
